THEME OF THE CONFERENCE

Rehumanizing Education for Meaningful and Holistic Development

ABOUT THE CONFERENCE

“By education, I mean an all-round drawing out of the best in the child—body, mind and spirit.”

~Mahatma Gandhi

In today's digitally driven educational landscape, technology and AI have enhanced access and efficiency, yet they often risk making learning mechanical and impersonal. This calls for a conscious effort to rehumanize education by restoring empathy, dialogue, care, ethical values, and emotional well-being to the heart of teaching and learning.

Rehumanizing Education for meaningful and holistic development emphasizes placing the child as a whole person at the center of education. It highlights the vital role of teachers, the importance of experiential and inclusive learning and the need to balance innovation with timeless human values. Such an approach seeks to create learning spaces that are compassionate, joyful, ethical and responsive to both present challenges and future needs.

OBJECTIVES

1. **To explore the need for rehumanizing education.**
2. **To promote holistic development of learners-intellectual, emotional, physical, and moral.**
3. **To highlight the important role of teachers in building caring and meaningful learning relationships.**
4. **To explore teaching and learning practices that are human-centered, inclusive, and experiential.**
5. **To stress the importance of values, empathy, emotional well-being, play and joy in education.**
6. **To encourage sharing of ideas and good practices for creating humane and future-ready education systems.**

SUB-THEMES

- **Re-centering the Teacher in a Digitally Dominated Era**
- **Dialogue, Empathy and Relationships at the Heart of Learning**
- **Human-Centered Approaches to Teaching, Learning and Assessment**
